Dear Ms. Louis:

This is in response to your May 20, 1997 e-mail message inquiring whether we did an analysis comparing the CCMP to the CALFED program. Following our February meeting at your office, we did compare the CALFED water quality actions to the recommendations in the CCMP. That comparison is enclosed. In addition, there was an earlier comparison of the CCMP and CALFED objectives, goals, and actions; that document is also enclosed.

Sincerely,
